

Update to Memorandum / Staff Report:

To: Common Council
From: Jenna Merten, City Attorney
Date: August 10, 2023
Regarding: Amendment to Temporary Use Ordinance

Per the discussion at the last Common Council meeting, City staff have updated the temporary use ordinance with new language (see yellow highlighted language). The changes allow the City to charge the applicant after the temporary use event for any damage to City equipment or extraordinary costs that the City incurs due to the use. Extraordinary costs are defined as costs that the City incurs due to the permittee's misrepresentation on the application, mismanagement of the use, failure to follow the permit conditions, or disregard of lawful police orders as determined by the Finance Committee of the Common Council.
