

Brookfield Sister Cities Committee

The Brookfield Sister Cities Committee was formed to create and develop partnerships with international communities. These partnerships strive to build cooperation and create an environment where our citizens, business, and officials can creatively learn through reciprocal cultural, educational, municipal, business, professional, and technical exchanges.

Our goals include:

Education

- Expose citizens to global cultures and economy.
- Facilitate education in language and culture for our youth and help them connect and network with peers in other countries.

Business

- Facilitate networking with similar commercial interests in our sister cities.
- Foster exports, imports, and investments.

Tourism

- Facilitate and promote tourist visits to our sister cities.
- Facilitate tourist visits to Brookfield and the local region.

Culture

- Foster cultural exchanges for students, citizens, and community organizations.

Public Service

- Facilitate the exchange of best practices in public administration.

We currently have one sister city, Seligenstadt in Germany. We are exploring the opportunities for a second sister city in China.

We welcome your participation in the committee and any of our programs and activities. Opportunities include: serving on the committee, participating in events and programs, encouraging student participation in the exchange program, hosting a visitor or intern from our sister city, and more.

Join our "Friends of the Sister Cities Committee" e-mail distribution list to keep up to date with our activities and programs.
